

A message about the Coronavirus from Sunset Foods

Over the past few weeks, we have been monitoring the news regarding the Coronavirus and impact it will have. The safety of our customers and staff is our top priority at Sunset Foods and we thank you for trusting us with the responsibility of your health for the past 83 years.

We are closely following the recommendations of the Center for Disease Control (CDC) and local health agencies to prevent the further spread of the Coronavirus or known as COVID-19. We have also been in regular discussions with an Infectious Disease Physician that has been helping to tailor the guidelines for our stores.

The cleanliness of our stores is something we have always been dedicated to and right now we are more diligent than ever. We have also increased our regular sanitation schedule including cleaning our checkout areas and common spaces more frequently. Currently, all food and beverage sampling have been temporarily suspended. As a precaution, our employees are being asked to stay home when sick.

We are committed to supporting you and your families, especially during this time of need. We are partners with Instacart (online shopping service) and offer Sunset eGrocer as a curbside pick-up option to ensure the ease of your shopping experience. We have increased staffing to support these in-demand services.

Again, we do not take your trust in us for granted and we ensure you we will continue to adopt the best practices to best serve your needs and safety.

John Cortesi
President and CEO
Sunset Food Mart
