

Sunset Foods has learned that one of our team members at our Lake Forest store has been diagnosed with COVID-19. We send our thoughts to our valued member of the Sunset family for a swift recovery.

Privacy for this individual remains a priority. However, it's important that we remain transparent with our communities and share how we are addressing this. Tuesday morning April 14th was the last day this staff member was in store. We were informed today, April 15th, of the positive test.

Following our protocol, for sanitation, the **Lake Forest store is closing at 6 pm today.** The store will be sterilized by a company that specializes in sanitation for this virus. Tomorrow, April 16th, the Lake Forest store will resume business with regular operating hours at 7 am - 8 pm.

We continue to follow the CDC guidelines as well as communicate with local health departments to respond responsibly. In all of our locations, we continue rigorous sanitation exercises and responsible social distancing practices.

Thank you for your continued support.

John Cortesi
President and CEO
